

# Adit Nuwal

Data Analyst | an238@njit.edu | 9297889500 | NJ

## EDUCATION

### NJIT

Bachelor's in CS

Honors: dEAN

Expected Graduation: May 2026

Current GPA: 3.79

## PROFESSIONAL SUMMARY

Data and AI driven individual with strong analytical skills and hands-on experience in exploratory data analysis, optimizing SQL queries and creating dashboards to drive data driven decisions.

## WORK EXPERIENCE

### NJIT | Data Analyst

Sep 2025 – Present

NJ

- Built a Python & Azure SQL data pipeline to ingest, clean and perform SQL transformation for 800K+ survey records
- Optimized complex SQL queries and data models (joins, filtering, indexing) to reduce query latency and improve ETL efficiency across 5+ large datasets
- Gathered business needs from stakeholders & collaborated with team members to design Power BI dashboards that track 10+ KPIs to present to NJIT leadership and support strategic decision making

### NJIT | Research Assistant

Jul 2025 – Aug 2025

NJ

- Built ETL pipelines using Pandas and SQL to clean, standardize and resolve data inconsistencies for 1M+ chemical records
- Tested and implemented new scalable data access systems using 8+ APIs, ensuring functionality aligned with requirements
- Documented system functionality, data flows, reproducibility steps and changes made to present weekly progress reports
